

RX10

FULLY RUGGED 10.1" TABLET

Large 10.1" FHD LumiBond® 2.0 sunlight readable display Intel® Core™ M processor 802.11ac next generation WiFi Optional 1D/2D imager barcode reader Intel HD graphics 5300 MIL-STD 810G and IP65 certified Industry-leading bumper-to-bumper warranty

Intel Core M Processor.

The RX10 is powered by Intel's Core M Processor, allowing for unparalleled mobility combined with functionality. You can work confidently in or out of the office with the convenience of a tablet and the power of a notebook.

Designed for Mobility.

Size matters when it comes to mobility. That's why we built the RX10 with a 10.1 inch display at only 2.65lbs and a razor thin 0.74in. It's not only lightweight but also easy to carry with the integrated ergonomic handle and embedded barcode scanner for patient information.

Expanded Functionality.

We designed the RX10 for increased functionality with our unique SnapBack add-ons. Integrated as an extension, you can add on a detachable keyboard, SmartCard reader, kick stand / hand strap based on your requirements. They easily snap right on or off — no tools necessary.

Built to Survive[™].

The RX10 was engineered to protect the tablet against 4 foot drops, shocks, spills, vibration, dust, liquid and is even able to be operated in temperatures from -5.8°F to 131°F. The RX10 has been independently tested and certified to MIL-STD 810G and IP65 standards.

Large 10.1" Display.

The RX10 features a large 10.1" FHD display utilizes our revolutionary LumiBond 2.0 technology to achieve a display that is more readable, and offers better contrast and more crisp colors than other rugged tablet displays.

Bumper-to-Bumper Warranty.

Accidents happen. Only Getac offers bumper-to-bumper coverage standard on every RX10 rugged tablet.
